Brian Sabo
President, USEA

To Whom It May Concern,

As one of the owners of Sabo Eventing and an instructor of Katie Ellis I can strongly recommend her for whatever teaching or riding tasks she is offered. Over the last few years I have watched this excellent rider gain a large amount of experience and effectively handle many different riders, horses and clients in professional manner. Advancing through the levels Katie has accepted every challenge with maturity and a pleasant “can do” personality. Each level has honed her skills and confirmed my belief that she will be a valued part of any equestrian program. Having trained international riders and as a faculty member of our United States Eventing Association Instructor Certification Program I can attest to her willingness to learn and her ability to teach correct principles to all ages and ability levels. Most importantly, I know she has the mental toughness needed to succeed in any environment. I believe that selecting Katie Ellis will be a positive step in helping the people and horses she works with achieve their goals in a safe, efficient and fun manner.

Thank you for your consideration,

Brian Sabo
President
